

PARKS AND LANDSCAPE COMMITTEE
YEAR END REPORT
April 2023 thru March 2024

The accomplishments of the Parks and Landscape Committee this term has been varied, from large scale enhancements projects to on-going community maintenance. These are a few of our efforts.

Wildlife Fence, Gate and Landscape project on Oracle Rd at the Vista Mirabella neighborhood. In conjunction with TOV and ADOT.

Siena neighborhood entrance gates, fountain and landscape refurbishment.

Monument refurbishment plans for the community entrance at Tangerine and RVB. Restoring the lighting, renew signage and turf removal for water conservation.

Moore Loop Park, turf and tot lot drainage. Final turn over to the VCA.

Worked with AAA on assessing the health and safety of trees in our community common areas, from storm damage or resident requests. Removing, trimming and possible replacement when appropriate.

Continuing to work with AAA on water conservation by smart watering and irrigation updating.

Updated park regulations and rules in our governing documents. Updating on site signage and posting rules on the VCA website.

The most important accomplishment for the P&L Committee is partnering with AAA to keep the high community standards in our parks and common areas. Making a safe and beautiful place for our residents to enjoy.
